Stop and Read. MOREY FARM QUIMBY & CHURCH'S COLUMN Haight, Hutchings & Co., The Spirit of Slavery. Nearly two years ago Bishop Hopkins published, a pumphet on slavery that added the moral sense of his own church, and deeply chaprined the liberty loving of all denominations. There was nothing extraordinary in the arguments it con-tained, for the subject had been protty thoroughly canvassed by other writers, and mearly every intelligent persons mind was ing extraordinary in the method of the argument, for the reasons in favor of humen bondage had been far more systematically and learnedly set forth in "Fietchers Stadies on Slavery." But the pamphlet was extraordingry, because it appeared St Winpotare whon liberty and slavery struggled for the supremery; because it then undertook to vindicate a cause which sought in the midst of war and blood, to change the convictions formed in time of peace. It was a bold effort to folst upon the conscience of American citizens, a SODE AGENTS for two celebrated brands Tecaty-two feet alstead, and of a. It was a hold offort to foist upon theory, which, if carried to its logical rewould deprive the poor of the rights and dignity of freemen. Any one who has turned over the pages of this pamphlet without feeling his checks burn with the flush of shame, or his heart swell with indignation, must be unworthy of the name of a freeman. And yet it was approved by very prominent men, and their names were paraded in public. The Bishop did not merely defend slavery as an er-op and in the merely defend slavery as an er-ma; he did not apologize for its atrocities as an interested dealer in human flesh would do; he did not only attack the Deslaration of Independence and attempt to show that it contained logical absurdities; he did not merely strive to deduce from the admitted natural inequalities of frame, form, size and brain, an argument inten ded to demonstrate the normal condition of African slavery, but he was bold enough to assail the citadel of freedom itself, and
